Hoofland's Column.

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or any thing like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtueus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES TAOMPSON.

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. JACKSON on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 per bottle; Or, a half dozen for $5.

Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the

INTERESTING FROM ALASKA.

HOW THEY LIVE—WHAT THEY DO.

A letter dated St. Paul's Harbor, Rodrack's Island, from an officer of the U. S. Revenue steamer Wayanda, says: We examined, on our way to this place, all the harbors of note on the coast; have found several places where coal could be mined at a profit on a small capital. In fact this country is full of coal, but a great deal of it of an inferior quality—the only good feature that I have seen so far in Alaska. Upon the whole, I think the Government has an elephant in this seven million purchase.

The Indians who inhabit this country are a most indolent race, particularly the southern tribes; but as we advance to the northward and westward their dispositions appear to change, owing, no doubt, to their intercourse with the Russians, as many of them have been converted to the Catholic faith. Far as we have gone the natives seem to be delighted by the change of Government; but I fear it will do them no good, as the traders are introducing "rum" among them, which has proved a curse to all men. During the winter months the natives are employed trapping the fur animals which abound in this country.

The natives live in a most miserable manner, their principal food being whale meat, seal and salmon; their houses are filthy, and they are filthy in person; their clothing consists principally of furs of the poorest quality, as they sell all the best skins to the traders. I find but very few old persons among them, most of them dying under forty, principally with consumption. It is constantly raining during the summer months and snowing during the winter.

At this place, on an island in the harbor, ice is collected to supply the San Francisco and China markets, the only business that pays in these regions. The weather, during the summer months, is anything but pleasant, raining most of the time, but very little wind; during the winter months it is very cold, and the winds are very severe, ice forming about three feet still water. I am told by parties living here it is hardly safe for a person to venture out during a gale.

We are now waiting the arrival of our coal, when we will proceed westward to Ounalaska, Bristol Bay, Northern Sound, and through Behring Straits to the most northern part of our possessions in the Arctic ocean. We are in hopes of getting South before the winter sets in, as it is fearful to think of spending a winter so near the north pole.

JERUSALEM.

Progress of the Excavations; Important Developments.

A correspondent of the New York *Times* writes from Jerusalem:

The discoveries made hitherto may be summed up briefly. The south wall of the sacred area, Heram El Shereef, within which stood the temple, has been explored to the very foundations. It is found that in one place the wall was not less than 180 feet high. At the lowest point of the wall, which is now determined to be also the lowest point of the Tyropæon Valley, he discovered a small passage which he explored for some 150 feet, of very ancient construction, and evidently intended to carry off superflnous water. Previously to this discovery it had been supposed that the lowest point was the southwest angle of the wall, where was the great arch, known as Robinson's Arch. Visitors to Jerusalem will remember the spring of the old arch, at the point. They will be gratified to learn that all the conjectures with reference to what formerly stood there have been abundantly verified. Not only was there a splendid arch crossing the Tyropæon Valley at lois point—the span of which was forty feet across—and the voussirs ruins of which now lie buried in the *debris*, but beneath this old arch, covered over with a pavement, built, presumably to cover these ruins, lie the stones of an arch older still, perhaps the arch built by Solomon himself. The complete investigation of this arch has been a long and a costly undertaking, but its importance is very great.

On the east side of Hiram wall lies the Valley of the Hedron. Lieutenant Warren, by a series of shafts and borings, has ascertained that the present bed of the stream is no less than forty feet higher than the old bed—the bed having been raised by the enormous masses of debris and ruins that have been hurled over into the valley. By the last letter from Jerusalem we received a plan of the system of chambers discovered at "Wilson's Arch," higher up on the western wall, near the "Wailing Place" of the Jews.—Lieutenant Warren has discovered, at a depth of some fifty feet below the surface of the ground, a vast system of chambers and passages. These chambers, whose use has not been decided, are mostly about twelve feet square, vaulted and filled up with rubbish or with water. About eighteen have been opened, of which it is conjectured that two or three are of Saracenic origin and the rest of Jewish. They branch off right and left along a great passage. This has been followed up for a distance of 250 feet, its destination being yet uncertain, and its use problematical. Perhaps, however, it was a secret passage for troops. The discovery is intensely interesting, and may lead to singular and most important results.

THE NEW POSTAGE STAMP.

THE Postmaster General has just awarded the contract for the supply of stamps to the department for the ensuing four years to the National Bank Note Company of New York. The new stamps will be somewhat smalier than those in use at present, but they are of a superior style and finish, with a novelty in design. The two cent stamp contains an engraving of a post boy on horseback in full speed. The three cent has a locomotive under full head of steam, the great carrier of our domestic service. The five cent stamp contains a head of Washington. The ten cent, the finest of all in design and execution, has a miniature engraving of the Declaration of Independence, executed with such delicacy and precision that the picture suffers nothing under a magnifying glass. The twelve cent stamp has an ocean steam ship, and the thirty cent has a finely executed engraving of the surrender of Burgoyne.—When it is considered that over a million stamps are issued daily, the importance of this contract is at once evident.

A GOOD CHARACTER.—A good character is to a young man what a firm foundation is to the artist who proposes to erect a building on it; he can well build with safety, and all who behold it will have confidence in its solidity—a helping hand will never be wanting; but let a singe part of this be defective and you go on a hazard, amid doubting and distrust, and ten to one it will crumble down at last, and mingle all that was ever built on its ruins. Without a good character, poverty is a curse—with it, scarcely an evil. Happiness cannot possibly exist where a good character is not—where it is not a frequent visitor. All that is bright in the hope of youth, all that is calm and blissful in the sober scenes of life, all that is soothing in the vale of years, centres in, and is derived from a good character. Therefore, acquire this as the first and most valuable good.

ONLY BELIEVE.—Let me entreat you to look to the word of God's testimony, and think not that anything else than a simple reception of these words, 'that the blood of Christ cleanseth from all sin,' is necessary for the purpose of being cleansed from your sin. It is the idea that something more is necessary which obstructs this reception. It is the imagination of a great personal work to which you have hitherto sat down in listlessness and despair, that keeps you at a distance from God. He approaches you with tidings; and what you have to do is to give credit to them. This is doing the work of God, that you belteve on Him whom He hath sent; and could this transition be accomplished, then would you be translated into a habit of cheerful and progressive obedience, which in a war of legalism, or in the attempt to establish a righteousness of your own, you never can attain.—*Dr. Chalmers.*

A TOUGH STORY.—Miss Mary Hulburt, from whose body physicians have extracted during the past ten years at least one thousand needles and pins, was found dead in her bed, at Susquehanna, N. Y., last week. She would never give any account of the manner in which they were introduced, whether she swallowed them or thrust them directly into her flesh, nor did her friends, by watching her, ever find out. They were found at different times working on the surface of almost every part of her body, but chiefly on the limbs. A lady who refused to believe the stories about their removal, states that she went to satisfy herself, and saw a physician extract nearly fifty from one one arm. The girl seemed to be very little affected by the operation.

It is a prevalent but mistaken idea in the Eastern States, that there are but few factories in the West. The fact is, that the cities and villages of the West are teeming with busy workshops. For instance, of the cities, St. Louis has over 300 factories and produces nearly $50,000,000 worth of goods annually, and of the villages, Moline, Ill., among other things, makes 50,000 plows of various kinds a year, and has $120,000 invested in shops where a log enters one end of the building and emerges from the other in the shape of tubs, pails, and churns.

Once a Week says: Here is a row of ordinary capital letters and figures:

SSSSXXXXZZZZ33338888

They are such as are made up of two parts of equal shapes. Look carefully at these and you will perceive that the upper halves of the characters are a *very little* smaller than the lower halves—so little that an ordinary eye will declare them to be of equal size. Now turn the page upside down, and, without any careful looking you will see that the difference in size is very much exaggerated—that the real top half of the letter is very much smaller than the bottom half. It will be seen from this that there is a tendency in the eye to enlarge the upper part of an object upon which it looks. We might draw two circles of an unequal size, and so place them that they should appear equal.

Another said: "Yes, dese Irishmen and Dutchmen and Frenchmen, dey don't know nothing, they can't even speak English; I don't tink dey ought to be allowed to stay yer, much less to vote, like we Americans." A third said: "Well, you jis wait till General Grant's lected, and he will fix dat for we; I bet you he don't let none vote 'cept dem what born yer."

FINIS.

The election is over. The Democracy have been beaten—beaten but not conquered. Radicalism has been saved by the military prestige of Grant. Saved? We shall see. We believe it has been destroyed by the election of a man "without a policy."

Grant, as President, must do one of two things, viz: He must administer the government within the Constitution, or he must become a despot. If he does the former, he will be a Democratic President; if the latter, his fate will be that of every tyrant that ever undertook to enslave a free people.

Let us hope for the best. Perhaps it is all the better for the Democracy that they have not been made the administrators of the rotten estate of the Radical party. Now the Radicals can make their own settlement with the people. They will have to do it soon, and do it thoroughly, or they will be held to a fearful account.

We give below the political complexion of the several states, as reported by telegraph:

Seymour.	*Grant.*
New York	Maine,
Delaware,	Vermont,
Maryland,	New Hampshire,
Kentucky	Massachusetts,
Mississippi,	Rhode Island,
Georgia,	Connecticut,
Louisiana,	Pennsylvania,
Alabama,	Ohio,
Oregon,	Indiana,
New Jersey.	Illinois,
	Missouri,
	Wisconsin,
	Iowa,
	Michigan,
	Nebraska,
	Kansas,
	California.

THE COUNTY.

The majority for Seymour in this county, will scarcely exceed 250. It was impossible to get a full poll of the Democratic vote, after the reverse we sustained in October. Had Pennsylvania gone Democratic then, Bedford county would have given 600 majority for Seymour. As it is we have made a good fight. We have returns only from the following districts:

	Seymour.	Grant.
Bedford Bor.	33 maj.	
Bedford Tp.	90 "	
Colerain	50 "	
Harrison		6
Juniata	108 "	
Napier	67 "	
Schellsburg bor.	10 "	
St. Clair	7 "	
St. Clairsville		12
Woodberry M.		44
Woodberry S.		35
Woodberry bor.		9

These districts show a Democratic loss of 77 on the October vote. The total vote of the county will be considerably less than at the last election.

THE RADICALS make a habit of nominating renegades from Democracy under the impression that such nominations bring strength to their ticket. This is why they nominated John Cessna. Now mark the result in Bedford county. Cessna, for Congress, received 2658, and Sams, Radical candidate for County Surveyor, received 2668. Sams leads Cessna 10 votes!

In Franklin county the result was still worse for the renegade. Cessna received 4192 votes, whilst Lehman, the Radical candidate for Commissioner, received 4352. Lehman leads Cessna 160. Lehman has a majority of 90, whilst Cessna is beaten 211, making a difference against Cessna of 301.

Our Radical friends can study these figures at their leisure and decide for themselves whether it pays to purchase renegades at that price.—*Valley Spirit.*

THE OLD GUARD FOR NOVEMBER.—As we draw near the hour of battle, THE OLD GUARD assumes a tone of boldness, vigor and pluck worthy of its title. The issue for the coming month is most excellent in all its departments—political, literary, scientific and art, but especially in its political matter. We find the articles under the headings of "U. S. Grant, by a General of the United States Army," "The Plea for Standing Armies," "Are We a Free People," &c., and considerable of the *melange* which makes up the Editor's Table, of especial interest at this eventful moment in our national history. Every member of the Democracy should read these articles. The balance of the number contains the usual miscellany, very varied and entertaining. The Book Table is even above the average, which is no ordinary commendation. Let every voter who desire to understand the principles upon which a good government is alone established, and alone sustained, read THE OLD GUARD. Single copies, 25 cents; $3 00 per year. JEFF DAVIS NOT TO BE TRIED.—The New York *Sun* says: "The next term of the United States Circuit Court in Richmond opens on the fourth Monday of November. There, if anywhere, Jefferson Davis will be tried. There he is indicted, and has been for a long time past—indicted for treason against the United States. But Jeff Davis will not be tried. There is not enough in the case to pay for trying it. No capital would be a farce in which the actors would necessarily render themselves ridiculous.

NEWS IN BRIEF.

Some Southern rogues have invented and put in practice a method of robbing cars which is novel. At a favorable point they grease the track, and while the locomotive is struggling and slipping to get along with its load, they break open a freight car and tumble out boxes and barrels, and whatever they can find to their liking. The night being chosen for the purpose, the stolen goods are not noticed by the conductor of the train, whose attention is occupied by the unexpected detention of the train.

A large stock grower in Texas, disgusted with the prices offered by butchers and drovers, has posted a notice in the market place at Brownsville, that he will begin to slaughter a drove of beeves and give the meat to the poor for nothing, and will do the same until the whole drove is disposed of, or until he can get a reasonable price. This he says, he can afford to do; as he can sell the hides and tallow for more than the butchers offer for the animals alive.

The Report of the Agricultural Bureau at Washington for the month of October has been published. It says the full promise of the early summer has not been realized in the wheat harvest. The increased area over that of last year is about neutralized by diminution in the yield, so that the increase in the total quantity as shown by the October returns, will not be more than three per cent, and that is obtained mainly from the Pacific coast. In Maryland and Wisconsin the grain has not yielded as much in threshing as was expected.

A locomotive set fire to the grass on the prairies, near Altoona, Iowa. Fanned by the high wind, the flames dashed into the neigboring farms, leaving a swath of ruin behind. The farm of Mr. Cummings was swept of everything—house, barn, with horses in it, grain in the stack and fences, all were swallowed up. The farm of Mr. Johnson, near by, met the same ruin, only he managed, by great efforts, to save his residence. Another large farm near Colfax was also entirely desolated.—The wind for a few days has been blowing a gale; the grass is as dry as tinder, and destructive fires in other parts of the State reported.

THE FAMOUS APPLE TREE.

The Montgomery *Picayune* contains an interesting account of Lee's surrender from which we take the following:

"Every now and then we see in our exchanges erroneous descriptions of the surrender at Appomattox, and how Gen. Lee stood and surrendered under an apple tree—how Gen. Grant admired Gen. Lee's beautiful sword, and returned it, remarking that Lee was too brave a man to be without a weapon, &c., &c.

"Gentle reader, none of these things happened. Lee did not surrender under an apple tree. He did not offer his sword to Grant. Grant did not admire the weapon and return it. If our readers will bear with us, we will give the surrender as we saw it.

* * * "Gen. Lee views the hopeless conflict from a distance, dispatches a flag of truce to Gen. Grant, the struggle ends, and the hostile lines are drawn back. While this correspondence was going on, and while General Lee was waiting the arrival of Gen. Grant, he took shelter from the sun under an apple tree in McLane's orchard, under which Talcot, of the engineer corps, had placed some rails for a seat, and fully half a mile from Appomatox. Gen. Grant's arrival on the outskirts of the army was soon announced. Lee, in a full suit of gray, with his English sword girded to his side riding forward on his gray to meet Grant—he was a warrior to whom history itself might stoop to gaze. The interview between the opposing chieftains was severely simple, but few attendants present. It took place between the pickets of the two armies and lasted only a few minutes. Grant apologized for not having his sword which was behind in the wagon. The terms were agreed upon, and Lee rode back to his army. Commissioners on either side were appointed to arrange details. The surrender became known, and then, to us, for two days a blank. List of our names were made out, and two days afterwards, with heavy hearts, we filed by, brigade at a time, before a line of captors, and deposited our banners and arms. Gen. Lee rode homeward on the third day, and all was over.

Cruelty to Children.

In Rochester, N. Y., a woman named Mary Swingler has just been sentenced to the Penitentiary for six months for abominable cruelty toward her adopted daughter seven years old. It was alleged by the prisoner that the little girl had stolen a piece of candy, and it was to deter her from committing further thefts that she punished her in the manner she did. By roasting the little one's hands over the stove she said she intended to give her an idea of what hell is, a place to which she would surely go if she stole any more. She thought it her duty to punish the child to save its soul from perdition, and nothing could so well convey her idea of perdition to the little one's tender mind as roasting its hands over a "young hell," the withering fire of a cooking stove. The exclamations of the girl, "Oh! mother, it hurts!"—"Oh! mother, it hurts awfully!" and the noise of the crackling flesh did not make the woman desist, and only the interference of neighbors prevented her from inflicting injuries which, doubtless, would have proved permanent. But few women in the city have a more benevolent and peaceable looking countenance than hers.

Another horrible story comes from Worchester, Mass: Mrs. Catharine Connor, residing on Foy street, committed a series of outrages on her little daughter last week that should draw down upon her head the hottest of public indignation. Last Friday night, bitter and biting in its extreme coldness, she stripped the little Lizzie, who is about eleven years old, and turned her naked into the cold night and dark street. The little thing laid down under a tree and cried herself to sleep. The same inhuman treatment was practised on the succeeding night, and on Saturday morning the child was found and cared for by a kind neighbor. An appeal was made to the mother for the child's clothes, but she refused to give them up, and since then the child has been fed and clothed by strangers.

The Earthquake in California.

SAN FRANCISCO, Oct. 24.—Details of the destruction of property in the interior of the State by the earthquake of the 21st have been received. Alameda county suffered the most damage to property, extending in all directions back to San Leandro. Numerous fissures of earth were made, from some of which came clouds of dust and others volumes of water. San Leandro creek, which for months was dry, is now running rapidly. The villages of San Leandro and Layward are almost in ruins. The brick buildings are all thrown down or uninhabitable There was only one building uninjured at Alamado. Brookland and Oakland also suffered severely. San Jose, Redwood City, Great Brick and Aodbe House and the Mission of San Jose are a mass of ruins. Petolauma, Healthsburg, Santa Rosa Valley and Martinez all felt the full force of the shock. Chimneys and walls were thrown down. The damage to property is considerable at Los Angelos. In the State of Nevada the earthquake was scarcely felt.

The San Francisco committee of architects report the city hall unsafe, and the building is to be taken down. Damage to the school houses is trifling, and the schools open as usual on Monday next. The United States marine hospital building has been condemned, and will be demolished. The patients at present are encamped on the grounds adjoining the hospital. The custom house is wrecked to such an extent that it will probably not be occupied again. Laborers are at work to-day on the shattered building and removing debris from the streets.

Gigantic Robbery—$100,000 Stolen in Broad Daylight.

NEW YORK, Oct. 28.—An extensive robbery took place this morning in Cedar street, closely resembling various others which have occurred lately, and in which the perpetrators, by the utmost daring, have escaped scot free, probably, never to be heard of again. It appears that C. W. Woolsey went this morning to the Safe Deposit Company's office, in Broadway, and took out a tin box belonging to himself, and containing $60,000 in five-twenty bonds, $40,000 in railroad stock, and $12,000 to $13,000 in currency. He took it in his hand, and walked with it down Cedar street, to No. 77, where he entered Edmund Coffin's Real Estate office, and placing his box on a desk, with his hat and umbrella upon the box. He turned around to speak with a clerk, when whiz! he heard a noise behind, turned round and saw a young man with the tin box in his hand making for the door. The cry of "Stop thief!" was immediately raised, but the thief had better legs than any body else, for he managed to make good his escape with the box, and poor Mr. Woolsey, who five minutes before was a rich man, stood ruined. A good enough view of the daring thief was got to furnish a description of his appearance, and the detectives have been entrusted, with John Young at their head, with the duty of catching the thief and recovering the property.

GERMAN REFORMED SYNOD.—This body which has been in session in our town, adjourned yesterday, the 29th inst. There were one hundred and seventy delegates present. On Monday last, Rev. Dr. E. V. Gerhart was inaugurated Professor of Didactic and Practical Theology, in the Theological Seminary, Mercersburg, in place of Rev. Dr. Harbaugh, dec'd. The most exciting affair of the session was the case of Rev. Dr. Bomberger. This gentleman published, in February last, among other things, the following:

"Those unwilling to vote for Dr. Gerhart were not permitted to nominate their candidate" for theological professor.

"The refusal to allow those desiring to have their candidate was a most extraordinary proceeding, unknown even among secular politicians, and without a precedent in the Church."

"We charged the Synod under whose sole and entire control the Theological Seminary is, with being the 'liturgical wing,' and as becoming so churchly as to cease to be Reformed."

This language the Synod almost unanimously resolved should be retracted by Dr. Bomberger, under penalty of denial to him of a seat in the Body. On Saturday last, Dr. Bomberger filed the following paper, which was received by the Synod as honorable and satisfactory:

"I retract the publication of the words or language which are deemed objectionable by this Synod, and regret that they should have become the occasion of offence."—*Hagerstown Mail, Oct. 30th.*

PRETTY GOOD.—Many incidents of an amusing character happened during the late war, which have never found their way into print, but which are too good to be lost. The following, we believe, has not heretofore met the public eye:

Wash Petty, a noted bushwhacker, whilst foraging in Southwest Missouri with his followers, rode up to a farmhouse whose owner was known to have ample provisions for man and beast, but whose politics were best known to himself. Petty and his men being dressed in Federal uniform, were mistaken by the farmer for jayhawkers. He began to declare most positively that he was a "Union man; God never made a better." Petty said, "we are hunting your sort; we are rebel bushwackers." Whereupon the farmer changed his tactics and declared just as positively that he was a "Southern man." "Look here old man," said Petty, "you don't know to which side we belong, and you must take one side or the other, and stick to it; if you happen to take the wrong side we'll kill you." This staggered the old man considerably, but after thinking a minute, he said: "Well, I said at the start I was a Union man, I'll stick to it if it is a d—d lie."

He was left to enjoy his peculiar opinion without further molestation.

CURIOUS CALCULATION.—When the public debt of the United States caused by the rebellion was at its highest point it amounted to nearly one dollar a minute for the time that has elapsed since the creation of the world. According to generally accepted chronology it was 4,004 years from the creation to the birth of Christ; that makes this the year of the world 5,872. There are 525,600 minutes in a year of 365 days; the whole number of minutes, then, since the beginning is 3,039,019,200—in round numbers, three thousand millions, which is about the number of dollars of our debt at its highest figure. Quite flattering to our national vanity, of course.

CURE FOR IN-GROWING NAILS.—It is stated that cauterization by hot tallow is an immediate cure for ingrowing nails. Put a small piece of tallow in a spoon, and heat it over a lamp until it becomes very hot, and drop two or three drops between the nail and granulation. The effect is almost magical. Pain and tenderness are at once relieved, and in a few days the granulations all go, leaving the diseased parts dry, so as to admit of being pared away without any inconvenience. The operation causes little if any pain, if the tallow is properly heated.

JUDGE CHASE is now laboriously engaged on a number of important cases which were submitted at the last term of the Supreme Court, but in which no decisions were rendered. He leaves Washington in a few days to hold a session of the United States Circuit Court in Savannah, Ga.

The Burlingame mission treaty has been freely discussed in the China press, and has given general dissatisfaction on account of containing no new concession.

KEEP WARM AND SAVE YOUR LIFE.—At this season many deaths take place which might be prevented by warmer clothing. Many a fatal case of dysentery is caused by the want of a woolen undershirt, or of an extra blanket at night. The sudden changes of temperature which occur at this period of the year are very trying to the constitution. People with weak lungs quickly feel the effect of them. Frequently the thermometer falls many degrees within a few hours. Not only the feeble, but robust and strong persons suffer from such great variations of temperature. When the weather grows cold rapidly, the pores of the skin are suddenly closed, and the result frequently is a bad cold, which many hold on all winter and terminate in consumption, or a fatal attack of dysentery, or that dreadful disease the typhoid fever.

If the day seems ever so warm and bright, it is much safer to wear plenty of underclothing at this season. In the evening the dews fall, and it grows chilly very suddenly. At all times, even when it feels warmest, one experiences the difference which is so marked, between the autumn atmosphere and that of the summer. There is something more than the mere difference in temperature; it may be in the electricity. An occasional fire in a room dries the wall and purifies the atmosphere. A little timely attention to all these things would prevent a great deal of the disease and sufferings which are among the ills to which humanity is liable.

GORGEOUS SUNSETS.—How few there are who really enjoy the gorgeous sunsets of the autumn. This is the season when they are seen in perfection, and the sight, to those who are fortunate enough to have a west window, with an unobstructed view, is one that fills the mind with the most pleasing emotions. No painter can rival the magnificent tints of gold and purple in the clouds, as the sun gradually sinks to rest behind them. Who can look upon such a scene and remain unmoved? And yet we are often too unmindful of all that the Creator has done to render the world agreeable and pleasant. The sight of the beautiful autumn sunsets ought to raise the soul out of the slough of grinding commerce to the contemplation of scenes that money cannot purchase. What a pity it is that so many men endowed with eyes, can see nothing above them! nothing good, massive, glorious, soul-purifying or inspiring.

ENCOURAGE THE YOUNG.—If a young man deserves praise be sure you give it to him, else you not only run a chance of driving him from the right road by want of encouragement, but deprive yourself of the happiest privilege you will ever have of rewarding his labor. For it is only the young who can receive much reward from men's praise; the old, when they are great, get too far beyond and above what you may think of them. You may urge them with sympathy, and surround them with acclamation, but they will doubt your pleasure and despise your praise. You might have cheered them in their race through the asphodel meadows of their youth. You might have brought the proud bright scarlet to their faces if you had cried but once, "Well done!" as they dashed up the first goal of their early ambition. But now their pleasure is memory, ambition is in heaven. They can be kind to you, and you can never more be kind to them.

SOAP.—Get from a druggist a pint box of concentrated lye for 40 cents. Empty contents into a gallon of boiling water. Let it have ten hours to dissolve. Then empty it into a boiler, add another gallon of water, and when the two gallons boil pour in four pounds of liquid grease, stirring it well until thoroughly mixed. Let it simmer for four or six hours, and half an hour before taking it off a gallon of hot water may be added. Two tablespoonfuls of pulverized borax and four of rosin add greatly to its detersive qualities; but a teacup full of salt must be thrown in. When thought done, dip in a case knife, and if the mass drops clear, ropy and chills quickly it is soap. Empty into a wash tub having the sides wet, and in a few hours you will have twenty-five pounds of hard white soap ready to be cut for use.

SHORT RULE FOR MEASURING GRAIN.—An exchange says: It is convenient to farmers and croppers to have an easy and correct rule by which to measure corn in cribs. Here is one—having leveled the corn in the crib, measure the length, breadth, and depth, and multiply them together, and deduct from the product one-fifth; and you have the number of bushels in the ear—for shelled corn take one-half of this. To be strictly correct, add half a bushel for every one hundred. Farmers who are fond of cyphering can test the correctness of this rule by taking 1,728 solid inches for a foot, and 2,159 inches in a bushel, and see that the latter is nearly one-fifth larger than the former.

VENTILATION.—Ventilation is as essential to life as victuals. Dr. Hall, in his *Journal of Health*, advocates the airing of the physical body, and the other Doctor Hall, of Echodale, which our readers must know is within echoing distance of our fair town, meditating over this matter, wonders why the body politic should not have a ventilating, and whether it was not highly important that he should do so, in order to keep all its functions in healthy action. The only question that troubled his brain was, "Can I ventilate, can I give an airing without putting on airs?" He imagined himself equal to the occasion but the sequel shows how sadly he was mistaken.—The emergency arose before him, he gazed on it with his "classic eye" and—flickered. He soon rallied, however, on his old hobby, and declared that the Democratic party were the allies of Slavery. He might have added in the language of the showman, "of which I have too, myself," been an earnest advocate, going about the country "seeking whom I might devour"—some abolitionist. We felt pained to notice that he again neglected to bring with him the book he used to carry, to prove the divinity of slavery.

But the whole affair was a complete water-*haul*, and the empty benches echoed back his howlings as the valley does at Echodale. But he could not pass the occasion by without giving vent to the indignant feelings he has harbored ever since he made a raid on a gentleman's carriage and found an empty demijohn, for if there be anything in the world that he entertains a most intense hatred for, it is a spiritless bottle.

He subsided and made way for that screech-owl of freedom, little Johnny, whose "immense popularity" caused 198 voters of his own party in this Congressional District to forget him on the day of election. He said nothing that he has not been heard to say a thousand times. He tried to get off an original joke on a man who voted the Democratic ticket in October, which he considered very witty, but the benches wouldn't laugh, so after selecting one of the lesser lights to write the history of the late election in this county, which is to embrace the exact amount of the corruption fund used for his election, which little episode he imagined would be of incalculable benefit to the coming generation, he struck an attitude, and vanished. Again the benches failed to applaud, and the music of the silver horns was heard no more.

JUBILEE.—The Seventh Jubilee of the Lutheran Church was duly celebrated by the congregation under the charge of Rev. B. H. Hunt, at Schellsburg, last week. The services commenced on Thursday and closed on Sabbath eve. The church was tastefully decorated with evergreens, and mottos pertinent to the occasion were hung about the walls, the most prominent one, from Martin Luther, half encircling the Great Reformer's portrait, was placed behind the pulpit:—"Ein Feste Burg ist Unser Gott."

The Pastor announced that he desired to raise the sum of one hundred dollars, in order to liquidate the indebtedness of the church. Considerable above that amount was at once subscribed and paid. The services throughout, in which the teachers and scholars of the Sabbath School connected with the church participated, were full of interest, and will long be remembered by all who were present. But with the jubilee were mingled thoughts of sadness when Mr. Hunt announced that with these services his relation as pastor must cease. For ten years he has ministered to the spiritual wants of this people, and by Divine blessing the church has prospered as it never did before. Many a tearful eye was beheld as the Pastor was about to separate from his congregation, and as the parting words came his heart became too full for utterance and he could simply say, "Good bye, God bless you!"

Mr. Hunt has accepted a call from Germantown, whither he goes in a few weeks. X.

SWORN IN.—Daniel P. Beegle, Esq., the newly elected County Commissioner, was sworn into office by Justice Nicodemus, on last Saturday. Mr. Beegle is an active, industrious man, just in the prime of life, and, we predict will make a good officer. Michael S. Ritchey, who retires from the Board, has been a faithful guardian of the public interests, and goes out of office with the consciousness of having earnestly endeavored to discharge the duties which his office imposed upon him.

NEW BRIDGES.—Two new county bridges are to be built, one to take the place of the one across Dunnings creek, near the farm of Charles Smith, in in Redford tp., which has become unsafe for the traveling public, and the other across Scrub Grass near William Oster's, in St. Clair tp. They will be let by the Commissioners, on Thursday and Friday of this week.

RETURNED.—E. F. Kerr, Esq., has just returned from a visit to Missouri. He speaks in flattering terms of the West, and is particularly well pleased with Holden and Kansas City. At the latter place he met a number of Bedford county folks, whom he represents as getting along very well.

IN the boudoir and the dressing-room one perfume reigns supreme. PHALON'S "FLOR DE MAYO," the new perfume for the handkerchief, has no rival in any home where tast presides. Sold by all druggists. oct23w2.

It is strange to see what carlessness some invalids attend to their health. They will procure a box of Plantation Bitters, which ought to be used up in a month or six weeks, and upon inquiry it is found that they have used only three bottles. Some days they have used it according to the directions, and others have not touched it. The whole trial has been irregular, and of course a less favorable result has come from their use. If it be true that "what is worth doing at all is is worth doing well," how emphatically is it true in matters relating to the health. A few bottles of Plantation Bitters have often wrought wonders, while in other instances disease has only been subdued after weeks of resistance.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

There are many homes which might be made more cheerful and pleasant to the inmates, by the introduction of a musical instrument, suited to the capacity of some of the household, which would infuse a new joy into the blessings of their abode. Possibly, there may be one or two, who possess a hidden talent for the divine art, which only needs encouragement to be developped into such perfection that others may derive much pleasure, besides the actual benefit which the player will derive. To such the American Organs manufactured by Messrs. S. D. & H. W. Smith, Boston, Mass., are particularly adapted. Not only do they give the nearest resemblance to the pipe Organ in quality of tone, but their delicacy of action renders them capable of being effectually used in the performance of light and cheerful music. —*Cincinnati Commercial.*

DESTRUCTION OF STUMPS.—We have heard of two methods of getting rid of stumps, which, as they appear feasible, and not expensive, we hope some reader will try, and report them. Bore with a two inch auger to the heart or centre, fill the cavity thus made with sulphuric acid, or with crude petroleum. In the first case, the acid becomes the destructive agent within a few months; in the latter, when the stump becomes saturated, as it will, with the oil, it is fired, and will burn out to the last particle, like a candle.

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

G. V. N. ANDREWS,
General Ag't,
Detroit, Mich.

N. B.—For the benefit of our Agents we have arranged with parties who have goods suitable for Sewing Machine Agents to sell. We will send BOOK OF SAMPLES and full particulars on receipt of one red stamp. Address G. V. N. ANDREWS, General Agent, Detroit, Mich. nov6y1

WANTED.

Clergymen, Teachers, and Superintendents of Sabbath Schools, and others to act as Agents for the

HOME BOOK OF WONDERS

A work of great interest fully illustrated, also for the COTTAGE BIBLE,

AND FAMILY EXPOSITOR,

in two volumes, containing nearly 1500 pages, comprising the Old and New Testaments, with practical expositions and explanatory notes, by THOS. WILLIAMS.

A few of the many recommendations:

From the late Rev. Joel Hawes, D. D., Pastor of the First Congregational Church, Hartford, Ct.—"I know of no commentary so cheap that contains so great an amount of valuable matter."

From the Rev. N. H. Eggleston, D. D., Pastor of Plymouth Church, Chicago, Ill.—"I cheerfully recommend it as the best commentary on the Scriptures for general use." For terms and circulars, address A. BRAINARD, Hartford, Conn.

BOOK AGENTS are meeting with rare success in selling Sir S. W. Baker's Explorations and Adventures among the Nile Tributaries of Abyssinia, to which is now added an account of the Captivity and Release of English Subjects, and the career of the late Emperor Theodore. No book is received among all classes of people with such unbounded favor, or so fully combines thrilling interest with solid instruction. Agents, male and female, sell it rapidly. "An admirable record of scientific exploration, geographical discovery, and personal adventure."—*N. Y. Tribune.* "It is issued in a very attractive form, and is as entertaining as a romance."—*Boston Journal.* Full particulars sent on application to O. D. CASE & CO., Publishers, Hartford, Conn.

AGENTS WANTED.

The New and Popular Illustrated Work, RECOLLECTIONS of a BUSY LIFE, BY HORACE GREELEY.

Is now ready for delivery, and we want agents for the same in every township of New Jersey. Every family should have it, and it will have a good sale. Sold only by subscription, and exclusive territory given. Send for circulars, and see our terms and a full description of the work. Address BLISS & CO., 190 Broad st., Newark, N. J.

THE GREAT NEW YORK AGRICULTURAL, HORTICULTURAL AND FAMILY NEWSPAPER.—The RURAL AMERICAN, published in the city of New York, is now the LARGEST and MOST ELEGANT paper of its class in the United States. Price $1.50 a year; 10 copies $2 50; 20 copies $20, or only one dollar a year! Every subscriber in clubs of ten, at $1.50, will receive a free package of EARLY ROSE POTATOES, selling at $40 per bbl., post paid, worth $1.25. The RURAL AMERICAN is everywhere admitted to be the BEST, CHEAPEST, and the most PRACTICAL farmers' and fruit-growers' paper in this country. Its editor-in-chief is an old farmer and fruit-grower of FORTY YEARS' experience! The publication of this paper was removed in June last from Utica, N. Y., to New York City; and the Editorial and Business Office to New Brunswick, N. J., (near New York,) where its proprietor owns a farm within the city limits, of 122 acres, worth $50,000; and also has a large cash capital to ensure permanency to his publications. Club Agents wanted everywhere, who are paid a very liberal compensation. Samples of paper, blank subscription lists, &c., free. Address T. B. MINER, New Brunswick, New Jersey.

ST. LOUIS and IRON MOUNTAIN RAILROAD COMPANY'S Seven per cent. first Mortgage Bonds. February and August Coupons. The earnings of the completed road to Pilot Knob are now more than the interest on the entire mortgage. The proceeds of these bonds are adding to the security every day. Over $8,000,000 have been spent on the property, and not over $2,000,000 of bonds issued thus far. The constantly increasing frame of carrying ore, with the prospect of controling all the travel from St. Louis to the Southern States, insures an enormous revenue. The Directors own 8-10 of the stock for investment, and are interested to enrich the property as well as to economize its expenses.

THOS. ALLEN, President, St. Louis, Mo.

We, the undersigned, cordially recommend these seven per cent. mortgage bonds, of the St. Louis and Iron Mountain Railroad, as a good security. The revenue of the road will be large, and the administration of the affairs of the Company is in capable and experienced hands, and is entitled to the greatest confidence of the public.

Coupons payable in the city of New York. A limited number of the above named Bonds for sale at Eighty-five. Parties living out of the city can remit by draft or express, and the bonds will be returned by express free of charges. We invite the attention of capitalists and others to them, as, in our opinion, a very desirable investment, destined to rank as a first-class security. MANHOOD: HOW LOST, HOW RESTORED. Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the radical cure (without medicine) of SPERMATORRHŒA, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriages, etc.; also, CONSUMPTION, EPILEPSY and FITS, induced by self-indulgence or sexual extravagance.

☞ Price in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

☞ This Lecture should be in the hands of every youth and every man in the land

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents, or two post stamps. Also, Dr Culverwell's "Marriage Guide," price 25 cents. Address the Publishers,

AYER'S
HAIR VIGOR,
FOR THE RENOVATION OF THE HAIR.
THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,
For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious thing may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or GREEN SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Sewing Machines.

THE GREAT
AMERICAN COMBINATION
Button Hole Overseaming
AND
SEWING MACHINE,
Its Wonderful Popularity Conclusive Proof of its Great Merit.

The increase in the demand for this valuable machine has been TEN FOLD during the last seven months of its first year before the public.

This *grand and surprising success is unprecedented* in the history of sewing-machines, and we feel fully warranted in claiming that

BEING ABSOLUTELY THE BEST
FAMILY MACHINE
IN THE WORLD.
And Intrinsically the Cheapest.

It is really two machines combined in one, (by a simple and beautiful mechanical arrangement,) making both the Shuttle or Lock-stitch, and the Overseaming and Button-hole stitch, with equal facility and perfection. It executes in the *very best manner* every variety of sewing, such as Hemming, Felling, Cording, Tucking, Stitching, Braiding and Quilting, Gathering and sewing on, (done at the same time,) and in addition, Overseams, Embroiders on the edge, and makes beautiful Button and Eyelet-holes in all fabrics.

Every Machine is warranted by the Company, or its Agents, to give entire satisfaction.

Circulars, with full particulars and samples of work done on this Machine, can be had on application at the Salesrooms of

OUR NEW
FAMILY
SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,
which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and
CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK
never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. DOUBLE-ACTING. NON-FREEZING
FORCE PUMP,

Patented August 28th, 1866, and awarded the PREMIUM at the Pennsylvania, Ohio, and New York State Fairs, in 1866.

The advantages claimed for this pump over all other patent pumps are as follows, viz: The valves, are composed entirely of cast iron, rendering it the most durable of any pump yet patented. This pump is so constructed that it never freezes, the water dropping back to the level with the water in the well. It is easily worked, and can be used by attaching hose, in washing wagons, horses, watering gardens, and in case of fire is of valuable service, as water may be thrown to the distance of from sixty to seventy feet in the air from it by the use of a small section of hose

This valuable pump is now offered to the public at the following prices:
